🔗 [SazedWorldbringer](#)

Self-taught, dedicated and highly motivated individual dedicated to writing clear, concise, robust code that works.

I like creating products that either have fun and nifty features or solve a genuine problem for people.

Projects

Hour Projects

A challenge to create 10 JavaScript projects in 1 hour.
It took me 2 hours.

- The projects are essential components to any modern website.
- Every project in it, the homepage included, has a nice looking UI.
- Got exposed to working under pressure.

<https://hour-projects.netlify.app>

Calculator

A simple JavaScript calculator

- Simple JavaScript calculator with a nice UI.
- Learnt more about and used JavaScript Classes.

<https://math-wiz.netlify.app>

Ninja Food

A website where you can look up recipes and save them in favorites.

- A website that looks good, is responsive and is styled using TailwindCSS.
- Used TheMealDB API to get the recipes.

<https://ninja-food-repo.netlify.app>

Starbucks

The landing page for the Starbucks website

- Turned design to pixel perfect HTML/CSS website.
 - The website is fully responsive.
